WHEREAS, demographic statistics and current trends support the fact that the population of Hendricks County will continue to grow at a rate much faster than the average rate of population growth in the State of Indiana; and

WHEREAS, new residential development in Hendricks County provides an expanding need to improve the opportunities for job creation and job retention in the manufacturing and commercial sector; and

WHEREAS, such jobs provide Hendricks County government with an expanded tax base for County Option Income Tax purposes; and

WHEREAS, new manufacturing and commercial development provides indirect tax relief for existing and new residential development; and

WHEREAS, it is in the best interests and general welfare of the people of Hendricks County to see quality growth and expansion of economic opportunities; and

WHEREAS, it is in the interest of the County that the cost of promoting economic development be paid for in part from a special economic development charge to be collected and deposited into a special fund and administered by the Auditor of Hendricks County; and

WHEREAS, the "Hendricks County Economic Development Partnership" ("Partnership") is a private not for profit corporation established under the laws of the State of Indiana to establish and promote many or most of the goals heretofore expressed and the County has acknowledged the valuable service it provides the County and its people and desires to take action to expand the capacity of the Partnership to provide developmental services.

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF COMMISSIONERS FOR HENDRICKS COUNTY, INDIANA, AS FOLLOWS:

It is the intent of the County to support economic development and the goals set forth above by providing a means to pay for the increased services of the Hendricks County Economic Development Partnership. In connection therewith, the County deems it appropriate and in the public welfare to provide for the payment of services from the Partnership in lieu of establishing and funding in full a public economic development commission for the County.

SECTION 4. The County hereby establishes and creates as the means to pay for the services provided by the Hendricks County Economic Development Partnership, which benefit the public at large and the establishment of greater opportunities for residential construction within the County, a special "Economic Development Service Fund" which shall serve as a depository for economic development charges collected pursuant to this Ordinance. In such event, then this Ordinance shall be deemed repealed and no longer in effect from and after said date.

CHAPTER 32
FLOODPLAIN MANAGEMENT

32.1 STATEMENT OF PURPOSE

The purpose of this chapter is to guide development within the flood hazard areas in order to reduce the potential for loss of life and property, reduce the potential for health and safety hazards, and to reduce the potential for extraordinary public expenditures for flood protection and relief. Under the authority granted to the Board of Commissioners of Hendricks County (Board) to control land use within their jurisdiction (which includes taking into account the effects of flooding) the Board hereby adopts the following floodplain management regulations in order to accomplish the following:

1. to prevent unwise developments from increasing flood or drainage hazards to others;
2. to protect new buildings and major improvements to buildings from flood damage;
3. to protect human life and health from the hazards of flooding;
4. to lessen the burden on the taxpayer for flood control projects, repairs to flood-damaged public facilities and utilities, and flood rescue and relief operation;
5. to maintain property values and a stable tax base by minimizing the potential for creating flood blighted areas; and
6. to make federally subsidized flood insurance available for structures and their contents in Hendricks County by fulfilling the requirements of the National Flood Insurance Program.

32.2 DEFINITIONS

For the purpose of this chapter, the following definitions are adopted:

1. BUILDING: see "structure."
2. DEVELOPMENT: any man-made change to improved or unimproved real estate including but not limited to:
 - a. construction, reconstruction, or placement of a building or any addition to a building valued at more than one thousand (\$1,000) dollars;

- b. installing a manufactured home on a site, preparing a site for a manufactured home, or installing a recreational vehicle on a site for more than one hundred eighty (180) days;
- c. installing utilities, erection of walls, construction of roads, or similar projects;
- d. construction of flood control structures such as levees, dikes, dams, or channel improvements;

EXISTING MANUFACTURED HOME PARK OR SUBDIVISION: a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date of these regulations.
- 4. EXPANSION TO AN EXISTING MANUFACTURED HOME PARK OR SUBDIVISION: the preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

 - c. the top of the first floor or of buildings elevated on pilings or constructed on a crawl space with permanent openings; or
 - d. the top of the floor level of any enclosure below an elevated building where the walls of the enclosure provide any resistance to the flow of flood waters unless:

- (1) the walls are designed to automatically equalize the hydrostatic flood forces on the walls by allowing for the entry and exit of flood waters, by providing a minimum of two openings (in addition to doorways and windows) having a total area of one (1) square foot for every two (2) square feet of enclosed area subject to flooding. The bottom of all such openings shall be no higher than one (1) foot above grade.
 - (2) such enclosed space shall be usable for the parking of vehicles and building access.
18. **MANUFACTURED HOME**: structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when attached to the required utilities. The term "manufactured home" does not include a "recreational vehicle."
19. **NEW MANUFACTURED HOME PARK OR SUBDIVISION**: a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of this ordinance.
20. **RECREATIONAL VEHICLE**: a vehicle which is (1) built on a single chassis; (2) four hundred (400) square feet or less when measured at the largest horizontal projections; (3) designed to be self-propelled or permanently towable by a light duty truck; and (4) designed primarily not for use as a permanent dwelling, but as temporary living quarters for recreational camping, travel, or seasonal use.

The term also includes recreational vehicles to be installed on a site for more than one hundred eighty 180 days.

24. SUBSTANTIAL DAMAGE: damage that equals or exceeds fifty (50%) percent of the market value of the structure before damage occurred.
25. SUBSTANTIAL IMPROVEMENT: any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds fifty (50%) percent of the market value of the structure before the "start of construction" of the improvement. This term includes structures which have incurred "substantial damage" regardless of the actual repair work performed. The term does not include improvements of structures to correct existing violations of state or local health, sanitary, or safety code requirements or any alteration of a "historic structure", provided that the alteration will not preclude the structures continued designation as a "historic structure".

32.3 DUTIES OF THE ADMINISTRATOR

The Director of the Planning and Building Department, or other such person as he or she may designate, shall be empowered to implement this chapter and hereafter be referred to as the Administrator. The Administrator is appointed to review all development and subdivision proposals to insure compliance with this chapter, including but not limited to the following duties:

1. Ensure that all development activities within the SFHAs of Hendricks County shall meet the requirements of this Ordinance.
2. Provide information and assistance to citizens upon request about permit procedures and floodplain construction techniques.
3. Ensure that construction authorization has been granted by the Indiana Natural Resources Commission for all development projects subject to Section 32.6 of this chapter and maintain a record of such authorization.
4. Maintain a record of the "as-built" elevation of the top of the lowest floor (including basement) of all new and/or substantially improved buildings constructed in the SFHA. Inspect before, during, and after construction.
5. Maintain a record of the engineer's certificate and the "as built" floodproofed elevation of all buildings subject to Section 32.7 of this chapter.
6. Cooperate with state and federal floodplain management agencies to improve base flood and floodway data and to improve the administration of this Ordinance. Submit reports as required for the National Flood Insurance Program.
7. Maintain for public inspection and furnish upon request regulatory flood data, SFHA maps, Letters of Map Amendment (LOMA), Letters of Map Revision (LOMR), copies of DNR permits and letters of recommendation, federal permit

documents, and "as built" elevation and floodproofing data for all buildings constructed subject to this Ordinance.

32.4 REGULATORY FLOOD ELEVATION

The flood protection standard shall be the regulatory flood as defined by this chapter and the Indiana Department of Natural Resources. The best available regulatory flood data is defined in the FBFM/FIS as amended. Whenever a party disagrees with the best available data, the party must submit a detailed engineering study to the Indiana Department of Natural Resources for review and approval. Indiana Department of Natural Resources (IDNR) approval must be obtained before data will be considered valid.

1. The regulatory flood elevation for each SFHA delineated as an "AH Zone" or "AO Zone" shall be that elevation (or depth) delineated on the Flood Insurance Rate Map.
2. The regulatory Flood Elevation for each of the remaining SFHAs delineated as an "A Zone" on the Flood Insurance Rate Map shall be according to the best data available as provided by the Indiana Department of Natural Resources.

32.5 IMPROVEMENT LOCATION PERMIT

No person, firm, corporation, or governmental body not exempted by state law shall commence any development in the SFHA without first obtaining an Improvement Location Permit from the Administrator. The Administrator shall not issue an Improvement Location Permit if the proposed development does not meet the requirements of this Ordinance.

1. In addition to the requirements of the Zoning Ordinance of Hendricks County, the application for an Improvement Location Permit shall include the following:
 - a. Location of the proposed development sufficient to accurately locate property and structures in relation to existing roads and streams.
 - b. A site development plan showing existing and proposed development locations and existing and proposed land grades.
 - c. Elevation of the top of the lowest floor (including basement) of all proposed development. Elevation shall be in National Geodetic Vertical Datum of 1929 (NGVD) or North American Vertical Datum (NAVD).
2. Upon receipt of an application for an Improvement Location Permit, the Administrator shall determine if the site is located within an identified floodway, floodway fringe, or within the floodplain where the limits of the floodway have not yet been determined.

- a. If the site is in an identified floodway, the Administrator shall require the applicant to forward the application (along with all pertinent plans and specifications) to the Indiana Department of Natural Resources and apply for a permit for construction in a floodway.

No action shall be taken by the Administrator until a permit has been issued by the Indiana Natural Resources Commission granting approval for construction in the floodway. Once a permit has been issued by the Natural Resources Commission, the Administrator may issue the local Improvement Location Permit, provided the provisions contained in Sections 32.6 and 32.7 of this Ordinance have been met. The Improvement Location Permit cannot be less restrictive than the permit issued by the Natural Resources Commission.

- b. If the site is located in an identified floodway fringe, then the Administrator may issue the local Improvement Location Permit provided the provisions contained in Sections 32.6 and 32.7 of this ordinance have been met. The key provision is that the top of the lowest floor of any new or substantially improved structure shall be at or above the Flood Protection Grade (FPG).

- c. If the site is in an identified floodplain where the limits of the floodway and floodway fringe have not yet been determined (shown as Zone A on the Flood Insurance Rate Map), and the drainage area upstream of the site is greater than one (1) square mile, the Administrator shall require the applicant to forward the application (along with all pertinent plans and specifications) to the Department of Natural Resources for review and comment.

No action shall be taken by the Administrator until either a permit for construction in the floodway or a letter of recommendation citing the 100 year flood elevation and the recommended Flood Protection Grade has been received from the Indiana Department of Natural Resources.

Once the Administrator has received the proper permit or letter of recommendation approving the proposed development, an Improvement Location Permit may be issued provided the conditions of the Improvement Location Permit are not less restrictive than the conditions received from Indiana Natural Resources Commission and the provisions contained in Sections 32.6 and 32.7 of this ordinance have been met.

32.6 PREVENTING INCREASED DAMAGES

No development in the SFHA shall create a damaging or potentially damaging increase in flood heights or velocity or threat to public health and safety.

1. Within the floodway identified on the Flood Boundary and Floodway Map or the Flood Insurance Rate Map, the following standards shall apply:
 - a. No development shall be allowed which acting alone or in combination with existing or future development will cause any increase in the elevation of the regulatory flood; and
 - b. For all projects involving channel modifications or fill (including levees) the Developer, in cooperation with Hendricks County, shall submit the data and request that the Federal Emergency Management Agency revise the regulatory flood data.
2. Within all SFHAs identified as A Zones (no 100-year flood elevation and floodway/floodway fringe delineation has been provided) the following standard shall apply:
 - a. The total cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the regulatory flood elevation more than one-tenth (0.1) of one (1) foot and will not increase flood damages or potential flood damages.
3. **Public Health Standards in all SFHAs**
 - a. No development in the SFHA shall include locating or storing chemicals, explosives, buoyant materials, flammable liquids, pollutants, or other hazardous or toxic materials below the Flood Protection Grade, unless such materials are stored in a floodproofed storage tank or building constructed according to the requirements of Section 32.7 of this chapter.
 - b. New and replacement sanitary sewer lines may be permitted providing all manholes or other above ground openings are located above the FPG or those which are located below the FPG are watertight.
 - c. New on-site waste disposal systems are prohibited within floodplains in accordance with the Hendricks County Health Department regulations.

32.7 PROTECTING BUILDINGS

In addition to the damage prevention requirements of Section 32.6, all buildings to be located in the SFHA shall be protected from flood damage below the FPG.

1. This building protection requirement applies to the following situations:
 - a. construction or placement of any new building valued at more than one thousand (\$1,000) dollars or greater than four hundred 400 square feet.

- b. structural alterations made to an existing building that increase the market value of the building by more than fifty percent (50%) (excluding the value of the land);
 - c. any subsequent alterations;
 - d. reconstruction or repairs made to a damaged building that are valued at or more than fifty percent (50%) of the market value of the building (excluding the value of the land) before damage occurred;
 - e. installing a manufactured home on a new site or a new manufactured home on an existing site. This ordinance does not apply to returning the existing manufactured home to the same site it lawfully occupied before it was removed to avoid flood damage; and
 - f. installing a travel trailer or recreational vehicle on a site for more than 180 days.
2. This building protection requirement may be met by one of the following methods: The Administrator shall maintain a record of compliance with these building protection standards as required in Section 3 of this ordinance.
- a. A residential or nonresidential building may be constructed on a permanent land fill in accordance with the following:
 - (1) The fill shall be placed in layers and compacted to ninety five percent (95%) of the maximum density obtainable with the Standard Proctor Test method.
 - (2) The fill should extend at least ten (10) feet beyond the foundation of the building before sloping below the FPG.
 - (3) The fill shall be protected against erosion and scour during flooding by vegetative cover, rip-rap, or bulkheading. If vegetative cover is used, the slopes shall be no steeper than three horizontal to one vertical (3:1).
 - (4) The fill shall not adversely affect the flow of surface drainage from or onto neighboring properties.
 - (5) The top of the lowest floor including basements (see definition of lowest floor in Section 32.2) shall be at or above the FPG. The applicant shall furnish as built documentation of this elevation certified by a professional engineer or registered land surveyor.

- b. A residential or nonresidential building may be elevated in accordance with the following:
 - (1) The building or improvements shall be elevated on posts, piers, columns, extended walls, or other types of similar foundation provided:
 - (a) Walls of any enclosure below the elevated floor shall be designed to automatically equalize hydrostatic flood forces on the walls by allowing for the entry and exit of flood waters through providing a minimum of two (2) openings (in addition to doorways and windows) having a total area of one (1) square foot for every two (2) square feet of enclosed area subject to flooding. The bottom of all such opening shall be no higher than one (1) foot above grade.
 - (b) Any enclosure below the elevated floor is used for storage of vehicles and building access.
 - (2) The foundation and supporting members shall be anchored and aligned in relation to flood flows and adjoining structures so as to minimize exposure to known hydrodynamic forces such as buoyancy, current, waves, ice, and floating debris.
 - (3) All areas below the FPG shall be constructed of materials resistant to flood damage. The top of the lowest floor (including basement) and all electrical, heating, ventilating, plumbing, air conditioning equipment and utility meters shall be located at or above the FPG. Water and sewer pipes, electrical and telephone lines, submersible pumps, and other waterproofed service facilities may be located below the FPG. An as-built certification by a professional engineer or registered land surveyor shall be provided to document that the top of the lowest floor is at or above the FPG.
- 3. Manufactured home and recreational vehicles to be installed or substantially improved on a site for more than one hundred eighty (180) days must meet one of the following anchoring requirements:
 - a. The manufactured home shall be elevated on a permanent foundation such that the lowest floor shall be at or above the FPG and securely anchored to an adequately anchored foundation system to resist flotation, collapse, and lateral movement. This requirement applies to all manufactured homes to be placed on a site;
 - (1) outside a manufactured home park or subdivision;

- (2) in a new manufactured home park or subdivision;
 - (3) in an expansion to an existing manufactured home park or subdivision; or
 - (4) in an existing manufactured home park or subdivision on which a manufactured home has incurred "substantial damage" as a result of a flood. An as-built certification by a professional engineer or registered land surveyor shall be provided to document that the top of the lowest floor is at or above the FPG.
- b. This requirement applies to all manufactured homes to be placed on a site in an existing manufactured home park or subdivision that has not been substantially damaged by a flood.

The manufactured home shall be elevated so that the lowest floor of the manufactured home chassis is supported by reinforced piers or other foundation elements that are no less than thirty-six (36) inches in height above grade and be securely anchored to an adequately anchored foundation system to resist flotation, collapse, and lateral movement.

4. Recreational vehicles placed on a site shall either:
- a. be on the site for less than one hundred eighty (180) consecutive days;
 - b. be fully licensed and ready for highway use (defined as being on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices, and has no permanently attached additions); or
 - c. meet the requirements for "manufactured homes" in paragraph (3) of this section.
5. A non residential building may be floodproofed to the FPG (in lieu of elevating) if done in accordance with the following:
- a. a Registered Professional Engineer shall certify that the building has been designed so that below the FPG, the structure and attendant utility facilities are watertight and capable of resisting the effects of the regulatory flood. The building design shall take into account flood velocities, duration, rate of rise, hydrostatic pressures, and impacts from debris or ice.
 - b. Floodproofing measures shall be operable without human intervention and without an outside source of electricity.

32.8 OTHER DEVELOPMENT REQUIREMENTS

- A. The Administrator shall review all proposed subdivisions to determine whether the subdivision lies in a flood hazard area as defined by this ordinance. If the Administrator finds the subdivision to be so located, the Administrator shall require the developer to forward plans and materials to the Indiana Department of Natural Resources for review and modifications in order to assure that:
1. it is consistent with the need to minimize flood damages;
 2. all public utilities and facilities (such as sewer, gas, electrical, and water systems) are located and constructed to minimize or eliminate flood damage;
 3. adequate drainage is provided so as to reduce exposure to flood hazards.
- B. Developers shall record the 100 year flood elevation on all subdivision plats containing lands within a flood hazard area prior to submitting the plats for approval by the Hendricks County Plan Commission.
- C. All owners of manufactured home parks or subdivisions located within the SFHA identified as Zone A on the community's FHBM or FIRM shall develop an evacuation plan for those lots located in the SFHA and file it with Hendricks County Plan Commission and have it filed with and approved by the appropriate community emergency management authorities.

32.9 VARIANCES

- A. The Board of Zoning Appeals may consider issuing a variance to the terms and provisions of this chapter provided the applicant demonstrates that:
1. There exists a good and sufficient cause for the requested variance.
 2. The strict application of the terms of this ordinance will constitute an exceptional hardship to the applicant.
 3. The granting of the requested variance will not increase flood heights, create additional threats to public safety, cause additional public expense, create nuisances, cause fraud or victimization of the public, or conflict with existing laws or ordinances.
- B. The Board of Zoning Appeals may issue a variance to the terms and provisions of this ordinance subject to the following:
1. No variance for a residential use within a floodway subject to Section 32.6 (a) or (b) of this ordinance may be granted.

2. A variance granted in a floodway subject to Section 32.6 (a) or (b) of this ordinance will require a permit from Indiana Department of Natural Resources.
3. Variances to the Building Protection Standards of Section 32.7 may be granted only when a new structure is to be located on a lot contiguous to and surrounded by lots with existing structures constructed below the flood protection grade.
4. A variance may be granted for the reconstruction or restoration of any structure individually listed on the Register of Historic Places or the Indiana State Survey of Historic Architectural, Archaeological and Cultural Sites, Structures, Districts, and Objects.
5. All variances shall give the minimum relief necessary and be such that the maximum practical flood protection will be given to the proposed construction; and
6. The Board of Zoning Appeals shall issue a written notice to the recipient of a variance that the proposed construction will be subject to increased risks to life and property and could require payment of increased flood insurance premiums.

32.10 DISCLAIMER OF LIABILITY

The degree of flood protection required by this chapter is considered reasonable for regulatory purposes and is based on available information derived from engineering and scientific methods of study. Larger floods can and will occur on rare occasions. Therefore, this chapter does not create any liability on the part of Hendricks County, The Indiana Department of Natural Resources, or the State of Indiana for any flood damage that results from reliance on this chapter or any administrative decision made lawfully thereunder.

32.11 VIOLATION

Failure to obtain an Improvement Location Permit in the SFHA or failure to comply with the requirements of a permit or conditions of a variance shall be deemed to be an ordinance violation and be treated as such in accordance with the provisions of this chapter and Chapter 3 of the Zoning Ordinance.

1. A separate offense shall be deemed to occur for each day the violation continues to exist.
2. The Administrator shall inform the owner that any such violation is considered a willful act to increase flood damages and therefore may cause coverage by a Standard Flood Insurance Policy to be suspended.
3. Nothing herein shall prevent the Administrator or Hendricks County from taking

such other lawful action to prevent or remedy any violations. All costs connected therewith shall accrue to the person or persons responsible.

32.12 ABROGATION AND GREATER RESTRICTIONS

This chapter repeals and replaces other ordinances adopted by the Board of Commissioners to fulfill the requirements of the National Flood Insurance Program. However, this chapter does not repeal the original resolution or ordinance adopted to achieve eligibility in the Program. Nor does this chapter repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. Where this ordinance and other ordinances, easements, covenants, or deed restrictions conflict or overlap, whichever imposes the more strident restriction shall take precedence. In addition, the Administrator shall assure that National Flood Insurance Program regulations and laws (310 IAC 6-1-1, IC 13-2-22 and IC 13-2-22.5) are met.

32.13 SEPARABILITY

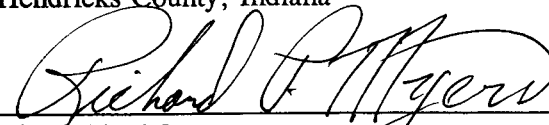

The provisions and sections of this Ordinance shall be deemed separable and the invalidity of any portion of this Ordinance shall not affect the validity of the remainder.

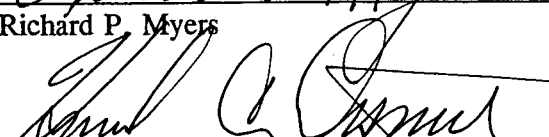

32.14 EFFECTIVE DATE

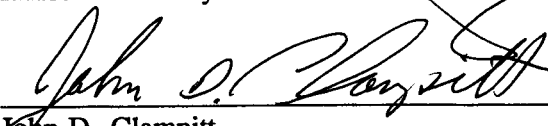

This ordinance shall take effect upon its passage by the Board of Commissioners of Hendricks County.

RESOLUTION OF HENDRICKS COUNTY COUNCIL

A PROPOSAL FOR A GENERAL RESOLUTION authorizing and committing the County to proceed with an economic development revenue bond financing in an amount not to exceed \$8,000,000, the purpose of which will be to assist Hendricks County Wastewater, LLC, an Indiana limited liability company, with the acquisition, construction and equipping of an economic development facility to be located in the County, subject to the obtaining of all approvals as may be required under IC 36-7-12 and otherwise.

GENERAL RESOLUTION NO. _____

WHEREAS, Hendricks County, Indiana (the "County"), is authorized by IC 36-7-12 (the "Act"), to issue revenue bonds for the financing of economic development facilities and to loan the proceeds of such bonds; and

WHEREAS, the County has been advised that there is under consideration a proposal by Hendricks County Wastewater, LLC (the "Company") for the acquisition, construction, installation and equipping of a proposed facility in the County, that will constitute an economic development facility, which is more particularly described as a wastewater treatment facility to be located in the County that will provide wastewater collection and treatment services for prospective users in that part of the County that is located in the general area bounded by I-74 to the North, County Line Road to the East, Raceway Plaza (Conrail tracks) to the South and County Road 900E to the West (the "Project"); and

WHEREAS, the Company has further advised the County that a determination by the County to issue its revenue bonds under the

Act to finance the acquisition, construction, installation and equipping of the Project, under contractual arrangements whereby the County would make a loan to the Company of the net proceeds derived from the issuance and sale of such bonds for the financing of the Project, will constitute a substantial inducement to the Company to proceed with the Project, and the Company has agreed to pay the costs of the County incurred in connection with the financing, whether or not such bonds are issued and the loan made; and

WHEREAS, this County Council has determined that the Project will provide opportunities for gainful employment, business opportunities and economic diversification and will be of public benefit to the health, prosperity and general welfare of the County and of its citizens; and

WHEREAS, this County Council recognizes that the providing of opportunities for gainful employment, business opportunities and economic diversification to be achieved by the acquisition, construction, installation and equipping of the Project will be of public benefit to the health, safety and general welfare of the County and of its citizens; and

WHEREAS, subject to all of the required approvals under the Act and otherwise, it would appear that the financing of the Project would be of public benefit to the health and general welfare of the County and of its citizens.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNTY COUNCIL OF HENDRICKS COUNTY, INDIANA:

Section 1. The County Council finds and determines that the issuance and sale of revenue bonds of the County under the Act, and the loaning of the net proceeds derived therefrom to finance the acquisition, construction, installation and equipping of the Project will enable the Company to proceed with and complete the Project, will be of benefit to the health and general welfare of the County and its citizens and will comply with the purposes and provisions of the Act.

Section 2. In order to induce the Company to proceed with the acquisition, construction, installation and equipping of the Project, the County Council hereby undertakes that:

(i) it will authorize and issue one or more series of revenue bonds of the County pursuant to the Act, in an aggregate principal amount not exceeding \$8,000,000 to finance the cost of the acquisition, construction, installation and equipping of the Project, including reimbursement or repayment of the Company of any monies expended by the Company for planning, engineering, interest during construction, underwriting expenses, and other costs of the Project, attorney and bond counsel fees, and will enter into contractual arrangements to make a loan to the Company of the net proceeds derived from the issuance and sale of such revenue bonds for the financing of the acquisition, construction, installation and equipping of the Project whereby the payments to be made by the Company shall be sufficient to pay the principal of, premium, if any, and the interest on such bonds when the same shall become due and payable;

(ii) it will adopt such ordinances and resolutions and authorize the execution and delivery of such instruments and the taking of such actions as may be necessary or advisable for the authorization, issuance and sale of said bonds; and

(iii) it will take or cause to be taken such other actions as may be required to implement the

aforesaid, or as it may deem appropriate in pursuance thereof; provided that all of the foregoing shall be as authorized by law and as mutually acceptable to the County and the Company;

Section 3. It is hereby recognized that the issuance and sale of revenue bonds by the County under the Act for the purposes set forth herein shall be subject to the County obtaining all approvals as may be required under the Act and otherwise.

Section 4. To the extent permitted by the Act, the Company may make such changes in the Project as it may deem necessary or desirable, provided that after such changes the Project will constitute an economic development facility under the Act.

Section 5. The revenue bonds, if issued, shall never constitute a general obligation of, or indebtedness of, or a charge against the general credit of the County and shall not be payable to any extent from revenue raised by taxation. The revenue bonds shall be payable only by and from sources provided by the Company and in the event of a default by the Company in payment, shall not be payable by the County to any extent. The revenue bonds do not and will not count against or otherwise affect any constitutional or statutory limit on the County's ability to incur debt or issue bonds. All costs and expenses incurred by the County from and after this date in connection with the revenue bonds shall be paid or reimbursed by the Company whether or not the revenue bonds are actually issued.

Section 6. The County Council recognizes that the aggregate principal amount of revenue bonds herein authorized may not be sufficient to complete the Project and agrees that the documents relating to the bonds issue may permit the issuance of additional bonds from time to time to complete the Project.

Section 7. This Resolution shall be in full force and effect immediately upon compliance with the procedures required by law.

WHEREAS, Hendricks County, Indiana (the "Issuer"), is authorized by IC 36-7-11.9 and 12 (collectively, the "Act") to issue revenue bonds for the financing of economic development facilities, the funds from said financing to be used for the acquisition, construction and equipping of said facilities, and said facilities to be either sold or leased to a company or directly owned by a company; and

WHEREAS, Woodberry Limited Partnership, an Indiana limited partnership (the "Applicant"), has advised the Issuer that it proposes that the Issuer lend proceeds of an economic development financing to the Applicant for the acquisition of land and the construction and equipping of up to 60 units of multi-family housing, together with ancillary facilities which may include but shall not be limited to a clubhouse, playground, carports and garages to be located at 2015 East Main Street, in the Town of Danville in Hendricks County, Indiana, and for reimbursement to the Applicant for expenditures incurred with respect to such acquisition, construction and equipping (the "Project"); and

WHEREAS, the diversification of industry and increase in job opportunities (approximately 5 new permanent jobs and up to 80 construction jobs) to be achieved by the acquisition, construction and equipping of the Project will be of public benefit to the health, safety and general welfare of the Issuer and its citizens; and

WHEREAS, it would appear that the financing of the Project would be of public benefit to the health, safety and general welfare of the Issuer and its citizens; and

WHEREAS, it is tentatively found that the acquisition, construction and equipping of the Project will not have an adverse competitive effect on any similar facility already constructed or operating in Hendricks County, Indiana; and

WHEREAS, the issuance of economic development revenue bonds as contemplated hereby will not give rise to a debt of the Issuer within the meaning of any constitutional debt limitations; and

WHEREAS, the revenue bonds contemplated hereby will not give rise to a general liability of the Issuer or the Commission, but will be payable solely from amounts repaid by the Applicant on the loan contemplated hereby or other credit enhancement obtained by the Applicant; and

WHEREAS, all costs of the Issuer and the Commission with respect to the proposed financing will be paid by the Applicant;

NOW, THEREFORE, BE IT RESOLVED BY THE COUNTY COUNCIL OF HENDRICKS COUNTY, as follows:

1. 2. The County Council of Hendricks County approves, determines, ratifies and confirms that the issuance and sale of one or more issues of economic development revenue bonds in an aggregate amount of approximately \$5,000,000 of the Issuer under the Act for the lending of the proceeds of the revenue bonds to the Applicant, for the acquisition, construction and equipping of the Project will serve the public purposes referred to above, in accordance with the Act.

3. In order to induce the Applicant to proceed with the acquisition, construction and equipping of the Project, the County Council of Hendricks County hereby approves, determines,

ratifies and confirms that (i) it will take or cause to be taken such actions pursuant to the Act as may be required to implement the aforesaid financing, or as it may deem appropriate in pursuance thereof; and (ii) it will adopt such ordinances and resolutions and authorize the execution and delivery of such instruments and the taking of such action as may be necessary and advisable for the authorization, issuance and sale of said economic development revenue bonds; and that the aforementioned purposes comply with the provisions of the Act; and (iii) it will use its best efforts at the request of Applicant to authorize the issuance of additional bonds for refunding and refinancing the outstanding principal amount of the bonds, for completion of the Project and for additions to the Project, including the costs of issuance (providing that the financing of such addition or additions to the Project is found to have a public purpose at the time of authorization of such additional bonds), and that the aforementioned purposes comply with the provisions of the Act; provided that all of the foregoing shall be mutually acceptable to the Issuer and the Applicant.

4. All costs of the Project incurred after the date which is 60 days prior to the date of adoption of this inducement resolution, including reimbursement or repayment to the Applicant of moneys expended by the Applicant for planning, engineering, a portion of the interest paid during construction and equipping, underwriting expenses, attorney and bond counsel fees and acquisition, construction and equipping of the Project, will be permitted to be included as part of the bond issue to finance the Project, and the Issuer will lend the proceeds from the sale of the bonds to the Applicant for the same purposes. Also, certain indirect expenses, including but not limited to, planning, architectural work and engineering incurred prior to this inducement resolution will be permitted to be included as part of the bond issue to finance the Project.
