STATE OF INDIANA , HENDRICKS , COUNTY;:SS:

In the Commissioners Court of Hendricks County, Indiana.

In the matter of the petition of
Martin Dougan to the repair and tile a
Portion of the Martin Dougan Drain.

Comes now the undersigned, Martin Dougan, and respectfullty shows to that in the year of 1877, inder the proc edings instituted in the Commissioners Court of Hendricks County, Indiana by Martin Dougan for the establishing of a new drain, a ditch was duly constructed over and upon the following described route -to-wit:-

Beginning at a pint south 46 degrees wast from the center of section 23, Township 17 North, Range 1 East, Distance 28 ¼ Rods, on the land s of John B. Sandusky: Its ge neral course being as follows, Commencing at a point above mentioned and described, thence north 58 degrees East 500 feet; thence north 47 East 300 feet; thence North 57½ degrees East 1550 feet, thence north 79 degrees East 5 550 feet; thence north 52½ degrees East 125 feet; thence North 31 ½ degreesEast 350 feet; thence north 87½ degrees East 275 feet; thence north 500 feet; thence north 56 degrees East 275 feet; tence north 89 degrees East 9 00 feet; thence north 60 degrees East 375 feet; thence North 20 degrees East 300 feet; thence north 58 degrees East 100 Feet; thence north 43 degrees East225 feet; thence North 62 degres East 125 Feet; thence north 13 degrees East 275 feet; thence north 6 degrees West 350 feet; thence North 20½ degrees east 125 feet; thence north 62 degrees East 350 feet; thence north 47 degrees East 450 feet; thence north 42½ degrees East 1400 feet;thence north 525 feet; thence north 52 degrees East 285 feet; thence north 500 feet to a point 13 rods east of the center of the North East Quarter of section 13, Township 17 North, Range one East, which said point is the terminus of ditch, and is distant from the beginning 11210 feet.

This pettioner would further show that said ditch was constructed as an open drain and has ever since remained such; that from its sourse to-wit; about 13 rods east of the center of the North East quarter of section 13, Township 17 North, Range one East, to where the same is crossed by a public highway running North and South through the center of said section 13, about 70 rods South of the center of said section 13, Township and range aforesaid, said ditch is out of repair and is not sufficient toperform the drainage for which it was designed and intended; that said ditch can be made sifficient. however, tp perform the drainage designed and intended by cleaning the same out to the depth originally constructed and by laying and covering tile therein for the distance aforesaid, to-wit, about 3/4 miles.

July Term, 1914.

Your petitioners would further show that the foregoing realestate would be greatly benefitted by the repairs of said ditch as heretofore set out and alledged by the cleanung of the same out of the original depth of construction and by the tiling of the same, but that the same can not be accomplished in the best and cheapest manner with out affecting the lands of others.

This petitioner would show that to accomplish the cleaning out and the tiling thereof as aforesaid of said ditch would affect the following described tracts of land in said County iof Hendricks, in addition to the foregoing described real estate, and which said tracts are owned by persons thereinafter named, to-wit:

The South East quarter of the North East quarter of section 13, Tow ship 17 North, Range one East, owned by Martin Dougan, Sr;

This petitioner would further represent and show that he believes the public helath will be improved and benefitted by the proposed repair and tiling of said ditch, and that the proposedwork will be of Public utility; thet the costs and exoenses and damages of such proposed improvement and repaires will be ness than the benefits which will result to the owners of the land likely to be benefitted thereby.

Wherefore this petitioner prays your Honorable Board that said ditch be repaired by the cleaning of the same as herein prayed for and that the same be tiled with the tile of sufficient size that said drain will perform the drainage intended for the distance set out and described in this his petition, all as provided by law in such cases.

SURVEYOR'S REPORT.

On petition of Stephen Dale et al for extension and improvement of J.W. French Ditch in Union Township, Hendricks County, Indiana.

To the Honorable Board of Commissioners of Hendricks County, Indiana we, the undersigned surveyor of Hendricks County, to whom you referred theabove mentioned petition respectfully report that, after having viewed said ditch, after having inspected the lands described in said petition as affected and also other lands liable to be affected by said proposed improvement, and after having examined the records of the proceedings in the establishment of said ditch and its two tributary arms, the Lambert Arm and the French Heathcock and Stayton Ditch, we are of the opinion that it is practicable and would be of great utility to make the improvement substantially as suggested in said petition.

We have made the neccessar y survey, and submit as a part of this report a Profile and Spepofications, and we estimate that the cost of the work done in accordance therewith should not exceed $1286.00.

We also submit as a part of this report an Assessment Roll in which this estimated cost is apportioned among the several tracts of land in proportion to what benefit we believe each tract will derive, and we also submit a plat showing the lands affected.

The emergency fund which the petitioners request to be provided, would amount to $128.60 and would increase each assessment 10%.

The cost of all work incident to the preparation of this report, as will appear by inspection of claims filed therefor is $59.50

Respectfully submitted.

SPECIFICATIONS.

2 All drawing s notes and figures on the Profile and Plat are included in these Specifications and should be carefully examined by Bidders, who should also view the ditch carefully, making their own calculations and relying on their own judgements as to conditions affecting the contract as to the amount of work neccessary to make the kind of ditch intended. It is intended that the work be first class in every respect and all matter not determined by these specifications shall be determined by the engineer.

Beginning at the mouth of the tiled part of the J.W. French Ditch, which is on the East line of the highway and about 120 feet North of the West half mile stone of section 17 in Township 17 North of range 1 West and is station 64 on the profile, the open part of said ditch is to be improved be deepening and widening to its terminus at a point which is N. 11 1/2 degrees W. 300 feet from the south west corner of the south east Quarter of the north west quarter of Section 18, Township and range aforesaid and is station 108. Thence said ditch is to be extended South 81 degrees, West to station 108 plus 24, thence North 83 1/2 degrees West to station 110 plus 48, thence north 61 1/2 degrees West to station 111 plus 75, thence north 69 1/2 degrees West to station 113 plus 60, thence South 71 degrees west to station 133, at station 119 plus 36 crossing the west line of said section 18 at a point 188 feet north of the west half mile stone thereof, from station 133 south 64 degrees west to station 134, thence south 49 1/2 degrees west to station 140 plus 75, thence south 68 degrees west to station 152, hence south 45 degrees west to station 154 plus 60, thence south 78 degrees West to station 156, thence south 51 1/2 degrees west to station 158, thence south 49 degrees West to station 159 thence south 60 1/2 degrees West to station 161, thence south 69 degrees west to station 163 thence south 74 1/2 degrees west to station 167 which is about 125 feet beqond the West line of the South East quarter of the South West quarter of section 13 in Township 17 North of range 2 west, and the natural water course along this line should be straightened to conform to these bearings, following smooth curves between the tangents, but no where else having short curves, and shal likewise be widened and deepened.

From station 64 to station 167, a distance of 10300 feet, the ditch shall be excavated to the depth which the profile shows the grade stake. This excavation will result in a uniform fall of about 2 inches per 100 feet. In case of error in the depth shown the same shall be corrected to give a uniform fall. From station 64 to station 87 the width of the bottom shall be not less than 2 feet, from 87 to station 136 not less than three feet, and from station 136 to station 152 not less then 4 feet, and from station 152 to station 167 not less than 5 feet.

The banks shall not be deeper than 45 degrees, and the top shall have the width necessary to preserve the specified width of bottom and slope of bank.

The excavated material shall be cast entirely beyond a line 2 feet from the berms, and the conditions in which the banks are left shall be satisfactory to the engineer and shall not cause unnecessary inconvenience to the landowners.

All grubs shall be removed from the space covered by the ditch and excavated material.. The trees noted on the profile, if not claimed by the land owners, shall be removed, or if claimed, the stumps shall be removed by the Contractor.

Although payments may be made thereon, no part of the ditch will be considered as finally received until the reception of the whole, at which time the work must be in first class condition.

In the matter of the investigation
of the care and treatment of one,
Mattie Bradford while and inmate
of the County Home.

The Board proceeded to the County Poor Farm of Hendricks County, Indiana , where an investigation was held concerning the care and treatment of one Mattie Bradford while she was an inmate of the County Home.

From such investigation and all the evidence proceeded, the Board would make the following report,to-wit:

That the material facts established relative to the care and treatment of the said Mattie Bradford were as follows, to-wit:

That during the summer of 1915 and prior to the 28th day of August,1915, Mattie Bradford, at the time about 61 years of age, resided with her son, Lakin Bradford in the town of Plainfield, Hendricks County, that on or about the 28th day of August, 1915, because of the failure of his brother to help support his mother, Lakin Bradford had his mother Mattie Bradford removed to the County Home.

That at the time of the removal to the County Home the said Mattie Bradford was effected with rheumatism ,was dropsical and her mind impaired.

That upo n her arrival at the County Home, and from time to time thereafter the said Mattie Bradford was examined by both the matron and Physician at the County Home.

That such examinationed revealed a number of brused places upon her person, which it appears were the result of falles at the home of Lakin Bradford, or abusive treatment received at the hands of her daughter-in-law, Hattie Bradford.

That such examination further disclosed that the said Mattie Bradford was effected with rheumatism that her mind was some what impaired, that her circulation was poor, as well as her power to assimilate food.

At the time of such examination an effensive odor was present coming from the person of Mattie Bradford and she was questioned by both the Matron and Physician concerning any veneral or other disease which she might have, upon which questioning

she insisted that she had never at any time, nor was at that time affected with any such disease.

It was further formed that after she arrived at the County Home, she was kept ina clean and sanitary condition, was bathed as often as occasion required and was given every attention which the institution afforded, that her circulation continued bad and her power to assimitate food impaired.

The Board further found that after the said Mattie Bradford had remained in the institution for some two weeks she became affected with bed sores, which, owing to her impaired circulation and physical condition generally, continued to grow worse, that these sores received prompt attention and were constantly treated with both medicine and the use of air pads until the 28th day of October, when she was removed from the institution by her son, Lakin Bradford.

The Board furtber finds that upon her removal from the County Home, the said Mattie Bradford was taken to the home of her son, Lakin Bradford where she received medical attention from Dr. Amos Carter.

It was further found that the said Mattie Bradford was examined on Thursday Morning, October 28th, by Dr. Carter who prescribed for her, and found her in a very low condition; that she was bathed on Thursday morning, on the afternoon of the same day, on Friday morning and on Friday evening; that her condition at the time of such examination was very bad and thereafter continued to grow worse until the time of her death; that at the time of the examination by Dr. Carter on Thursday October 28th, a number of maggots were found to be present in and about the private parts and rectum of the said Mattie Bradford, which condition remained until the time of her death; that on Friday evening October 29th, a number of the bed sores upon the body of the said Mattie Bradford became loosened and dropped out in large sections; that behind these sores were discovered a number of maggots which had hatched out beneath the surface of such sores.

It was further found that the said Mattie Bradford died at 11:20 P.M. on the 30th day of October, 1915, and within sixty hours after her removal from the County Home.

The Board further finds that during the time the said Mattie Bradford was an inmate of the County Home, she was frequently visited by friends and relatives, and was waited upon by one of her sons for a period of two weeks during said time; that upon every occasion of such visits and during the two weeks she was waited upon by her son, she was always found in a clean and sanitary condition, well taken care of, and well treated to the favorable comment of all who saw her during the time she was in the County Home.

The Board further finds that during the time the said Mattie Bradford was an inmate of the County Home, she received every attention and care which the equipment of said Home made possible; that every care was taken to provide for her comfort, cleaniness and well being and that she was provided with the best food, care, attention and medicine which is possible to render inmates of the County Home.

That the condition in which the said Mattie Bradford was found upon her leaving said Home was a condition often present where persons suffering from bed sores received the care of best trained nurses and the benefit of every modern appliance for the treatment of such cases; that the same conditions are often found in the best of institutions where the equipment and care are the best.

The Board further finds that the management and care of said institution under the present Superintendent and Matron has been, and is now beyond reproach and more than favorably compares with other institutions of a similar nature throughout the State.

To the above and foregoing report the members of the Board have hereunto set their hands this 5th day of October, 1915.

In the Matter of the Sale of Certain

The Board of Commi ssioners of Hen dricks Co unty,Indiana, upon its own motion now take up and consider the advisability of longer retaining the farm known as the Orphans' Home and described as follows,to-wit:

The East half of the South East Qu rter of the South East Qu rter of Section Three, and all that part of the West half of the South West Quarter of Section Two lying north of the Indianapolis & Rockville State Road, all in Township 15 North,Range 1 West, except the Right of Way of the Indiana & Illinois Railroad Company, and the Indianapolis, Terre Haute & Eastern Tr ction Company thereon.

In the Matter of the Petition of the
Board of Commissioners of Hendricks
County,Indiana,to Sell Real Estate.

To the County Council of Hendricks County, Indiana.

Gentlemen: The undersigned,Board of Commissioners of Hendricks County, Indiana, give your honorable council to know that the county of Hendricks, county and sta state aforesaid, is the owner and in possession of the following described real estate in Hendricks County,Indiana, to-wit:

The East half of the South East Quarter of the South East Quarter of S ction Three, and all that part of the W half of the South West Quarter of Section two lying North of of the Indianapolis & Rockville State Road, all in Township 15 North, Range 1 West, except the right of Way of the Indiana & Illinois Railroad Company, and the Indianapolis, Terre Haute & Eastern Traction Company thereon;

We further show, and disclose to you, for your guidance in the premises that the improvements thereupon said described real estate are in bad repair and will require a large sum of money for their restoration to efficiency; that the sole and only use to which said real estate has been put in the last several years is that of rental property;that the county has absolutely no use for the same,and the further expenditure of money to keep the same in repair is, in our opinions, a waste of the public funds, and tha that it will be more to the interest of the county to sell said real estate than it will to lay out any sums of money whatever in putting the same in proper condition to longer hold.

Wherefore we petition your honorable Council for an Ordinance authorizing the sale

Brown and Fred Sears, purchased of the then acting County Agent in and for said county and State, said lot two (2), in Block thirty four (34) in the original town of Danville and then and there paid to the agent of said county the full amount of the purchase monry therefor.

Whereupon the said County Agent executed and delivered to the said George Faught a good and sufficient Warranty Deed for said lot two (2) in Block Thirty four (34), in the Original Town of Danville, but that through the carelessness, negligence and inadvertance of the said faught, the said deed for said lot was never placed of record in the Recorder's Office of said County and that diligent search has been made for said Deed but that the same cannot be found, and Whereas, it is shown that said lot has been continuously,openly, notoriously held and claimed, under color of title, by the said Irving J. Wherefore we ask your Honorable Board to order the Auditor of said County as Ex-Offico agent thereof, to execute a deed for said lot to the said petitioners, Irving J. Brown and Fred Sears, in order to remove the cloud cast upon their title to said lot by reason of the inadvertance of the said George Faught above set out.
