Survey made for Allen Jackson  
 & Chas. O. Newlin Aug 4, 1904.  
 From all evidences and  
 the fences I find that the south  
 line of Carters Add (Blk 19) is 3  
 feet from the section line in-  
 stead of 15 feet as the record  
 states.

I also find that the lot  
 owned by Chas. O. Newlin is 150 feet on the south line instead  
 of 120 as the record states and that said lot is 120 feet on the  
 north line which corresponds to the records. I therefore  
 hereby establish the corners a, b, c, d, e & f as shown on the  
 above plat.

In making the above survey I find that there was  
 a mistake in the original survey and that all  
 of the Lots in said Addition are larger than the plat  
 shows and I divided the gain in the proper proportion  
 and establish the corners to Lot No. 21 accordingly.
