FROM DR. REIBOLD'S NOTEBOOK

I suggest that the student begin to build his own library. Carefully select the best books available. I began my library with the purchase of "Wood's Insects at Home." They called me a bugologist. That book made me the first money I have made through the use of books. My library has grown to more than 5000 volumes. I never sell a book which I have used and marked. I have taken care to surround myself and my family with the best thoughts of the best people that have lived. I lose very few of my leisure hours. I have in my books a means of using my scraps of time. A good book is a good friend. The purchase of a good book is one of the best investments. I hunger for the companionship of these mighty people.

You never sit down and read a good book, but that you arise a different and better man. A good book is a gift worthy of Apollo. In charm and beauty they excel all other furnishings of the home.

It is said that during the tenth century the countess of Anjou gave two hundred sheep, one load of wheat, one load of rye, and one load of millet for one volume of sermons by a German monk. Today for a few pennies the best books may be purchased. Build your own library. Begin today.

Rousseau says that Robinson Crusoe, to his taste, is the best treatise on natural education.

THE EDITOR'S CRY

The Balanced Student
The ideal of each of us it to maintain such a balance in our lives that we may be considered by all an "all-around person." This means being fully developed mentally, physically and socially. College has for its greatest aim the development of all three in each individual student who enters its portals.

There are many organizations and other special activities. In each, the student is given the power to meet people, to feel at ease under all conditions where people are present and to develop our personalities. Through our physical program we try to really recreate our bodies.

The greatest of all is the development of the mind. Sometimes we are tempted to belittle this activity, but we all admire the person who is so developed. Reversing the proverb that "all work and no play makes Jack a dull boy," we can say that "all play and no work makes Jack a dumb boy." No one likes to be that kind of a person. It is a talent to be able to study, to concentrate, to devote oneself to his books and his study, but we are glad to find

it is a talent which can be developed by all normal individuals.

We must budget our time and our energy so that a part of our time and our effort are devoted to real study. It is not right for any individual to devote too much time to his physical or his social life. Are we planning our programs in that way now?

FACULTY MEETING

"O wad some Power the giftie gie us, To see oursel as ithers see us!"

Thus the opportunity was given the faculty of C. N. C. Wednesday evening, when an open meeting of the august body was staged for the enlightenment of all spectators. In order to establish Central Normal's reputation as a "singing school" Pres. Wood insisted that members of the faculty present try their vocal chords and sing Varsity. Mrs. Wean was found missing when roll was called and when she did enter she had no time for a mere faculty meeting--The Campus Crier must go out--evidently the editor was missing.

Members of the freshman class staged this meeting and several of the faculty members were exceptionally well portrayed. Dean Pleasant and Miss Cole were there in person--almost! Professor Winfrey succeeded in leading songs too. The faculty really sang.

COMMERCIAL CLUB Last Tuesday evening the members of the Executive Committee of the Commercial Club met and made plans for the coming year. Due to the fact that the social life of the members seems full it was decided that this year the aims of the Commercial Club would be to study commercial problems, to make our acquaintances among the men in the business field wider, and to wider our scope of business experience. Plans are being made to entertain the county commercial clubs at least once trying to develop in the neighboring departments a feeling of cooperation. Plans are being made to bring some interesting speakers on business subjects here, and also to study in the group some interesting business questions. The financial committee talked over several plans which they were considering for raising the money which will be necessary to carry out their plan of awarding an honor medal to an outstanding student.	RECREATION ROOM Recreation Room will be finished this week. The floor is polished for dancing or any other type of entertainment. Organizations that expect to use the Recreation Room must make reservations with President Wood. MEMBER NAT'L. ED. ASS. President Wood has become a member of the National Education Association of the United States. LIBRARY DONATIONS The Following People have recently donated books to the library: Sam Agnew, Dale Washburn, John Weathers, Dr. L. W. Brown, and J. P. Gerard. A BRIGHT IDEA Because of a ban on student operated motor cars on the campuses of state colleges in Oregon, the horse and buggy has staged a successful comeback. One accident has already been reported. Did you know the C. N. C. Library subscribes to over fifty magazines?	 Among the New Books EAST OF THE SUN and WEST OF THE MOON by Theodore Roosevelt and Kermit Roosevelt. Travel. JUNGLE DAYS by William Beebe. Travel. OUR PRESIDENTS. Brief biographies of our chief magistrates by James Morgan. HE UPSET THE WORLD by Bruce Barton. Religious. THE ART OF THINKING by Ernest Dimmet. Psychology. SORRY BUT YOU'RE WRONG ABOUT IT by Albert Edward Wiggam. Essays. EXPLORING THE UNIVERSE by Hinshaw Ward. Science. These books may all be found on the special bookshelf in the Library.

GET THE HALF-BACK

The 44-0 defeat handed C. N. C. warriors last Friday night did not put a black mark on the Warriors' record. Just bear in mind that Whittenberg is the champion of the Ohio Conference.

This week's practice consisted of correcting a few mistakes and light scrimmage. Thursday evening was devoted to punting and passing.

No injuries will handicap C.N.C. in the encounter Saturday. The Warriors will then journey to Valparaiso to get revenge for the defeat handed them last week.

Some of the Freshmen showed up well in the Wittenberg game. Krone-witter at end, Smith at guard played best for the Warriors.

Several new men may break into the lineup Saturday.

The following will probably make the trip to Valpo: Gross, Albright, Riley, Latimer, Walls, Scudder, Fisher, Noble, Sellers, Krone-witter, Wilson, Mullen, Slabaugh, Long, Steidle

TENNIS TOURNEY

A tennis tourney for the girls in the tennis classes is being planned. The girls who are to play in the tourney will be selected at a meeting this morning and other details of the games will be arranged. The tourney will take place as nearly as possible at the regular hours.

A Freshman from Mishawaka, Merle Slabaugh by name, fell victim to the epidemic that is ravishing students of Central Normal College at this season. Mr. Slabaugh was married Sunday afternoon. Who'll be the next?
