Two Bridges To Be Fixed

Two Hendricks County Bridges were placed on the top priority list of repair by the County Commissioners on Tuesday.

The Hampton Bridge on Road 200 West in Center Township was washed out by a recent flash flood and was placed on the priority list for repair. A second bridge is that which crosses White Lick Creek on Hufford Road in Lincoln Township about one mile west of Ind. 267. That bridge was hit by a car Saturday night.

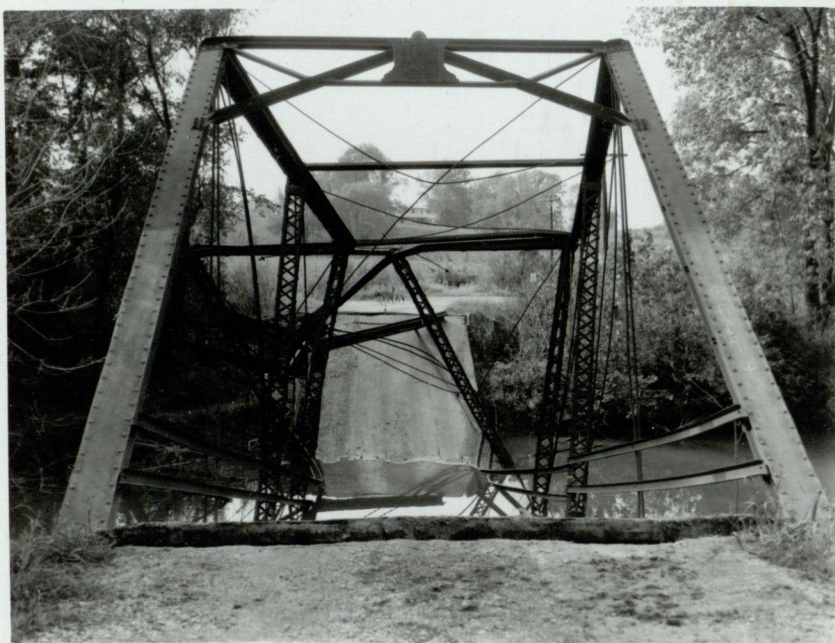

The Commissioners listed the bridges top priority due to the fact that school buses and mail routes use the bridges.

It was reported at the meeting that roads are scheduled to be installed in the Shelton Addition. Also Road 100 East near Lizton is to be black topped, along with a request to top 10th and Wall Street in Washington Township.

The Commissioners took under advisement a resolution calling for a county Board of Health. It is expected that the matter will be taken up at the next meeting of the Board.
