To the Honorable Board of County Commissioners of Hendricks County Indiana.

We, the undersigned patrons and tax payers in school district No. 5 of Center Township in said County, respectfully petition your honorable board to have the children, who are inmates of the County Home that is located in said district, taught in the common school branches of learning at some other place than the public school of said district where they have been taught in the past. We respectfully ask this believing that justice to the school district requires that they should be taught some where else besides the public school.

To the Board of Commissioners:-

You refer 2 us the complt. of the patrons of School Dist. #5 in Centre Tp. that the children of school age in the Orphan's Home are sent to old School #5.

Sec. 33 of the Act of May 6. 1895. brings S 8173 R. S. 1901. reads as fol:- (here set out)

Sec. 3 Act 4/7. 1881. brings S 8181 R.S. 1902 so far as this question is concerned reads as fol.:- (H. S.)

Sec 1. Act July 18. 1885. S 6033 R. S. 1902 reads as fol:- (H. S.)

It seems 2 us from these sections that there is not contemplated, by law, any place to educate pauper children except in the public schools. All these sections seem to say that and nothing else.

The 1st section quoted says the Supt. of the asylum shall send "them 2 the common school in the dist. in which the asylum is situated."

The 2nd sec. quoted above says the Matron "shall send 2 the common schools in the districts most convenient 2 the place where such children are kept, where they shall be receive & taught at least 3 mos. in the year."

The last quoted section provides that such children shall be supplied with books and sent 2 the township schools.

It possibly might be within the power of the county board to furnish a teacher for the orphan children in the County Orphan's Home, but it does not seem to us that the law contemplates such a thing. The only thing that even remotely looks that way is the Proviso in the act of 1885 above quoted. It might be well doubted whether a system could ever be educed from a mere proviso to a law, and especially where the proviso only is a reference to the thing possibly contemplated.

We do not think the Commissioners can withdraw all school privileges from these children; all admit that it ought not be done. It may seem desirable that they should not attend the district school, but unless the County Council has made an appropriation for their education in the Home it seems to us the Board would not be justified in hiring teachers for them until the Council appropriates for that purpose.

We do not believe the Board can withdraw the children from the district school until some provision has been otherwise made for their education.
